

## SF-8™ Health Survey Translated for Use in 35 Countries

**February 18, 2002** - QualityMetric Incorporated, in partnership with the Health Assessment Lab, now offers 40 translations of the SF-8™ Health Survey for use in 35 countries. A country-by-country list of available questionnaires can be viewed by clicking [here](#). The SF-8™ Health Survey – a major advance in achieving both brevity and comprehensiveness in population health surveys – yields single-item estimates of the eight domains captured by the SF-36® Health Survey profile and each of the physical and mental health summaries. To view more information about the SF-8™ Health Survey, please click [here](#). For a license to use any of the SF-8™ Health Survey translations, please click [here](#).

### About QualityMetric Incorporated

QualityMetric Incorporated has integrated the consumer's voice into health care decision-making with self-reported generic and disease-specific health outcomes surveys used worldwide to measure health status with scientific validity in clinical practice, disease management, population monitoring, clinical trials, and direct-to-consumer marketing. Founded in 1997 by John E. Ware, Jr., PhD, principal developer of the SF-36®, SF-12®, and SF-8™ Health Surveys, QualityMetric's scientific expertise has dramatically evolved the value and precision of health-related quality of life measurement while our technology applications, including the world's first computerized dynamic health assessments (DYNHA®), have broadened the options for administration.
